## **CHARGEMASTER REVIEWS/MAINTENANCE AND OUTSOURCING**

If you have not done a Chargemaster review in the last 12-18 months, let us take a look.

- We offer a basic offsite review of your Chargemaster, and make certain it is in compliance with all coding updates and policies in just 4 weeks.
- We empirically provide a minimum 300% ROI on every Chargemaster project we do.
- Our chargemaster consultants have a rare combination of clinical, coding and financial expertise.
- All of our consultants have a coding and clinical background and understand both the compliance and financial ramifications from a clinical, coding, compliance and reimbursement standpoint.
- All of our Chargemaster consultants have the coding CPC credential, plus many have a clinical/nursing background.

**We have a Chargemaster service that suits your needs:**

### **Comprehensive Chargemaster Review:**

- The review is provided in a 6-week turnaround time
- The service is compliance driven, and we review each line-item to ensure that all billing is accurate.
- Interviews are conducted with revenue producing department managers and revenue integrity staff for a complete understanding of your Chargemaster and processes
- Our consultants may discover:
  - Compliance issues
  - Missed billable services,
  - Departmental practices that are causing lost revenue.
  - Empirically, our minimum ROI for this service is 300%.

We make sure you are charging for everything you should be, and not charging for things you shouldn't. Our service combines an automated method of organizing the Chargemaster, while still ensuring that every line-item is manually reviewed to ensure accuracy and regulatory compliance.

- Validating CPT/HCPCS and revenue codes
- Verification of charge descriptions
- Identification and addition of missing/required codes
- Interviews with revenue producing departments

**Other Types of Chargemaster Reviews Types:**

- **Desk review:** A quick scrub of your chargemaster updating your CDM with the latest codes and recommendations.
- **On-going Maintenance:** We review and update your Chargemaster every month, to ensure it is up to date and current.
- **Complete outsourcing:** Leave the management of your Chargemaster to us. We do everything from adding new codes for your ancillary departments, to updating your Chargemaster at the end of each year with new codes. We become your Chargemaster manager, freeing up your revenue cycle team for other duties.
- **Standardization:** Consolidating a group of CDMs into one uniform charging tool.

## **OUR TEAM OF CONSULTANTS:**

At HPS, we plan on building long term partnerships with our clients. Your problems are our problems so we can become a trusted member of your team, with a nationwide perspective, and the ability to institute change and improve productivity through our experience working with similar facilities and situations nationwide.

### **Our talented team of consultants.**

When it comes to Coding and Chargemaster work, our long-term team makes all the difference.

- We are proud to have a dedicated, domestic team of certified coders and chargemaster specialists who possess CCS, CCS-P, CPC, RHIA, RHIT, COC, CEMC, CPC-P, CCDS, RCC and other credentials.
- Our coders have a minimum of 5 years of experience, most with 5-10 years of coding and coding validation experience.
- Our auditors have a minimum of 10 years of coding audit experience.
- While most coding companies offer 95% accuracy, we offer a 98% accuracy rate, validated by extensive internal QA.
- Our chargemaster staff have a rare combination of coding and clinical expertise and have each completed hundreds of chargemaster reviews.
