

HOSPITAL PRICING SPECIALISTS

Are you tired of struggling with the time-consuming and stressful task of managing contracts?

EZPAY's advanced technology allows you to identify critical payment variances and maximize revenue, ensuring timely payments and holding payers accountable to contract terms.

Our non-invasive data analysis of standard EDI files (837s and 835s) minimizes the need for staff involvement, saving valuable time.

EZPAY's cloud-based solution delivers easy access to management insights, providing a detailed summary of potential underpayments and the estimated cost to collect them.

Take control of your contract management and increase collections with EZPAY.
