Hospital C	\$14,063	\$29,815	\$17,442	\$3,379	\$12,374
Hospital D	\$12,266	\$24,280	\$12,568	\$302	\$11,713

As the healthcare industry shifts towards a value-based care model, it's more important than ever to have a clear understanding of your hospital's financial performance. With the new price transparency legislation, we've unlocked a wealth of data and have gone the extra mile to assemble the industry's most comprehensive clinical financial database. Our team at HPS has analyzed over \$100 billion in hospital spending across 4,100+ facilities to develop Financial Compass.

This powerful tool provides valuable insights on code-level costs, payments, and profitability, enabling you to not only understand your hospital's financial performance, but also benchmark it against industry standards. By utilizing this data in contract negotiations, you can demonstrate the high value of your hospital to payers, and position it for success in today's competitive market. Don't let your hospital be left behind, take control of its financial future with Financial Compass.
